

Associate your TZ Navigator v3 license with a My TIMEZERO account

Associate your TZ Navigator v3 license with a My TIMEZERO account and benefit from online services such as: Weather Forecasts, Chart Upgrades, Notifications and Technical Support. Follow the steps below to set up your My TIMEZERO account.

You will have the following two options:

Log in
"My TIMEZERO"
account

Register "My
TIMEZERO"
account

Log in « My TIMEZERO » account (for existing TZ APP users)

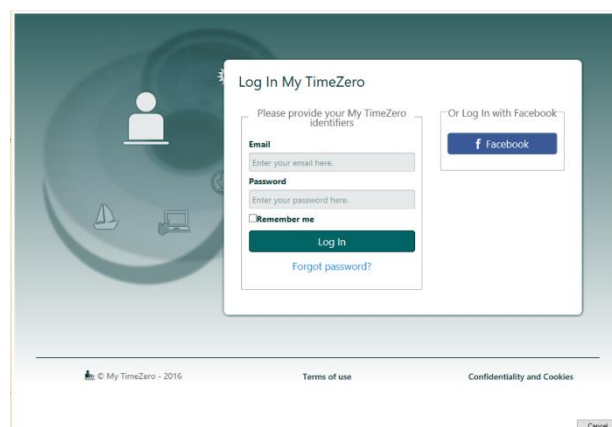

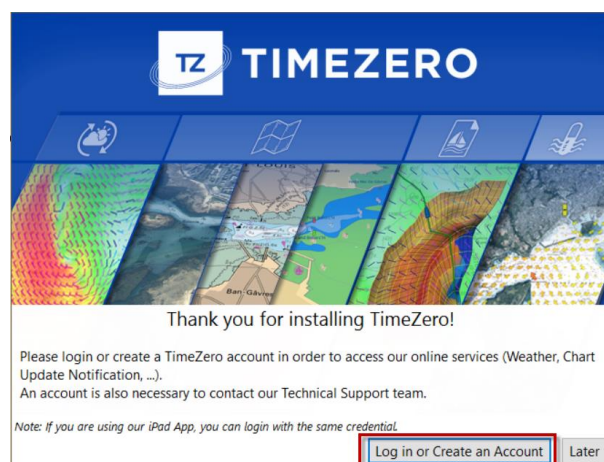

My TIMEZERO is a new online account that differs from My MaxSea and My Nobeltec so even if you already had an account for a TIMEZERO product, you will still need to create a new account. However, if you are already a TZ App customer, you can use your login details without needing to create a new account.

When launching the software, a pop-up window will ask you to log in or register in order to access to all online available services:

- If you are connected to the internet, click on: Log in or Create an Account
- If you are not connected to the internet or if you don't want to register at that moment, click on: Later

A new pop-up window will ask you to log in your « My TIMEZERO » account. If you already have an account, you can then enter your login details to register your account « My TIMEZERO » to your upgraded TZ Navigator v3. Otherwise click on: Register

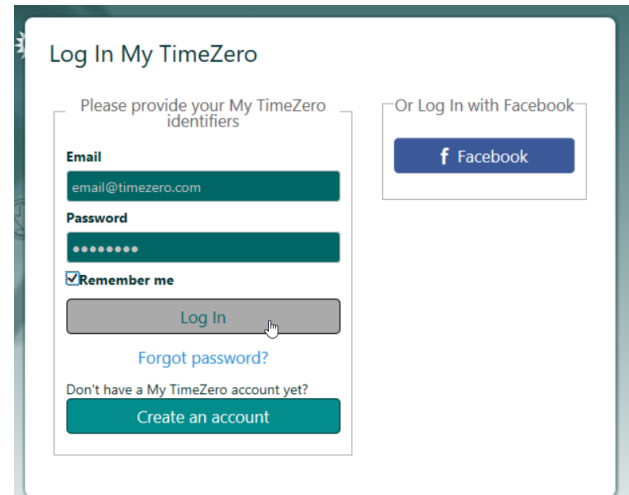

Note: If the license is already linked to an existing « My TIMEZERO » account, the button "Register" is not displayed. In this case, enter the corresponding login details or in the case that you no longer have the login details, contact [support](mailto:support@maxsea.fr) in order to get your login details or reset the license.

If you already have an account My TIMEZERO, enter your login details to connect to your account.

Note:

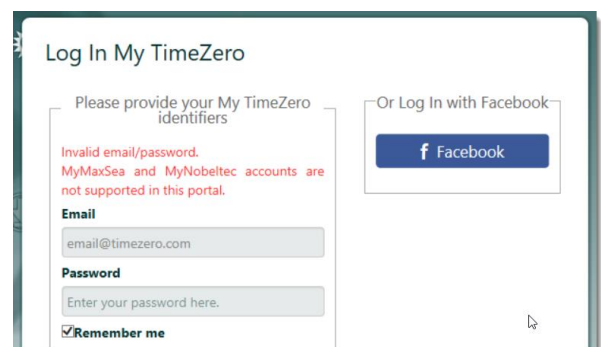

- If you have the TZ App for Ipad, you can use the same login details
- You can also connect via your Facebook account

The screenshot shows the 'Log In My TimeZero' interface. It has two main sections. The left section is for logging in with email and password, with fields for 'Email' (containing 'email@timezero.com') and 'Password' (masked with dots). There is a 'Remember me' checkbox and a 'Log In' button. Below these are links for 'Forgot password?' and 'Create an account'. The right section is for logging in with Facebook, featuring a 'Facebook' button.

In case of an error, a message notifies you that the email or password entered is incorrect.

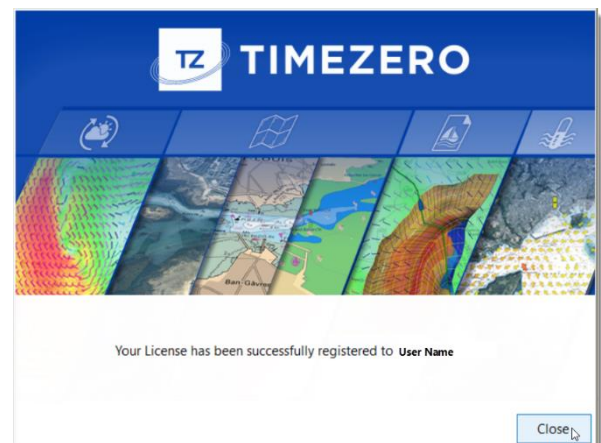

Beware: You can't use your: My MaxSea or My Nobeltec login details to get connect. You need to register and create a new My TIMEZERO account.

This screenshot shows the login form with an error message: 'Invalid email/password. MyMaxSea and MyNobeltec accounts are not supported in this portal.' The email field contains 'email@timezero.com' and the password field is empty. The 'Remember me' checkbox is checked.

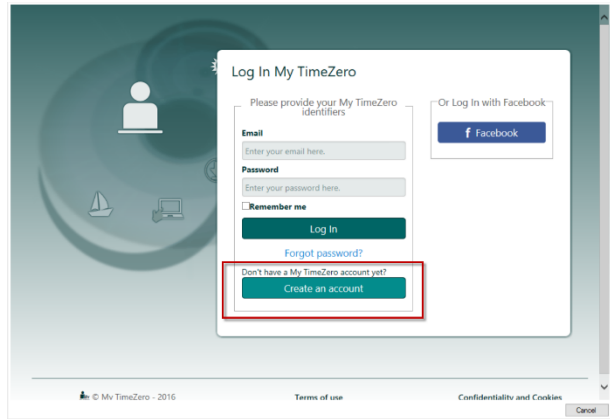

If your login details are correct, a progress bar will be displayed during the registration process.

The following pop-up window will then be displayed to let you know that your registration was successful:

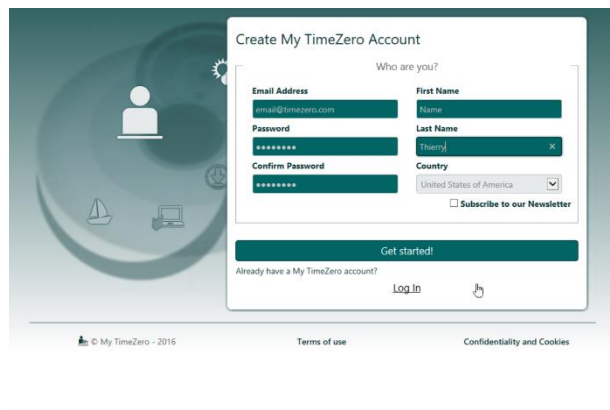

Creating a new My TIMEZERO account

To register from the connecting window, displayed when launching the software, to your new « My TIMEZERO » account, click on “register”

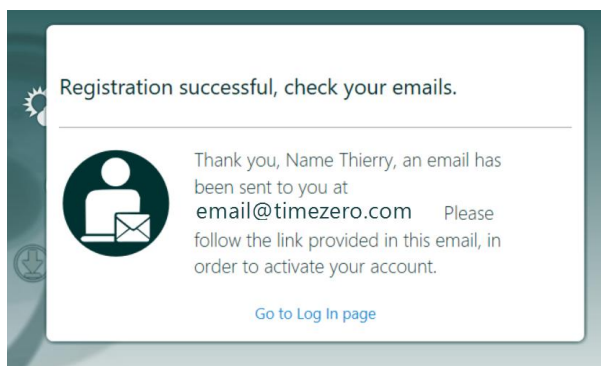

The screenshot shows the 'Log In My TimeZero' window. It has a title bar and a main content area. On the left, there's a large circular graphic with a person icon. The main content area has a white background with a light blue border. It contains a 'Log In' section with fields for 'Email' and 'Password', a 'Remember me' checkbox, and a 'Log In' button. To the right, there's a 'Or Log In with Facebook' section with a Facebook logo and a 'Facebook' button. Below the 'Log In' section, there's a link for 'Forgot password?' and a button for 'Don't have a My TimeZero account yet? Create an account'. The 'Create an account' button is highlighted with a red rectangle. At the bottom, there's a footer with '© My TimeZero - 2016', 'Terms of use', and 'Confidentiality and Cookies'.

Enter your email address (ID), your password, name and surname, then click on « Get started! » to register.

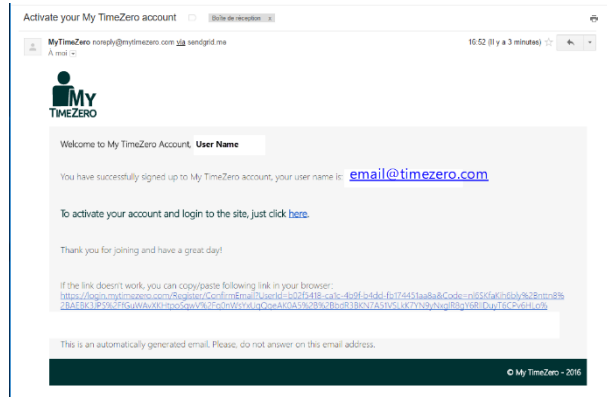

The screenshot shows the 'Create My TimeZero Account' window. It has a title bar and a main content area. On the left, there's a large circular graphic with a person icon. The main content area has a white background with a light blue border. It contains a 'Who are you?' section with fields for 'Email Address', 'First Name', 'Last Name', 'Password', 'Confirm Password', and 'Country'. There's also a 'Subscribe to our Newsletter' checkbox. Below the fields, there's a 'Get started!' button. At the bottom, there's a footer with '© My TimeZero - 2016', 'Terms of use', and 'Confidentiality and Cookies'.

The following pop-up window lets you know you will receive an email shortly with an activation link.

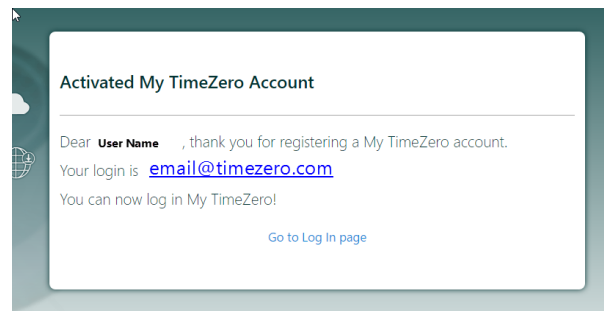

The screenshot shows a 'Registration successful, check your emails.' pop-up window. It has a title bar and a main content area. The main content area has a white background with a light blue border. It contains a large circular graphic with a person icon and an envelope icon. To the right of the graphic, there's text that says 'Thank you, Name Thierry, an email has been sent to you at email@timezero.com. Please follow the link provided in this email, in order to activate your account.' Below the text, there's a link for 'Go to Log In page'.

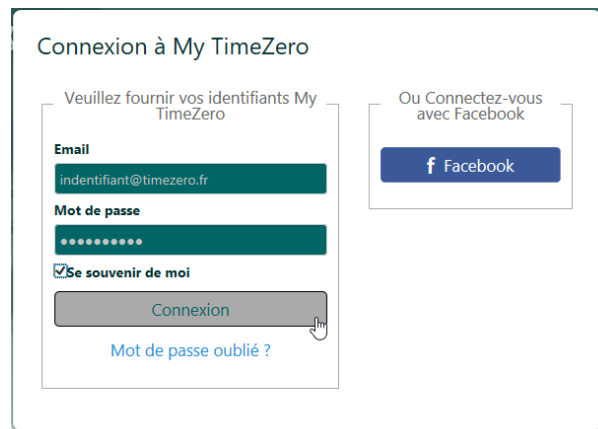

From the email, click on Click here to activate.

You will then receive a message letting you know that your My TIMEZERO account has been activated.

You can then relaunch TZ Navigator v3 and register your license as explained in the [previous chapter](#).

Reminder: You need to validate your activation link from the email in order to link your license number with an email address and benefit from the services mentioned earlier.
